

Georgia's Pre-K Child Assessment Program Information

Georgia's Pre-K Programs are expected to implement the Georgia's Pre-K Child Assessment System. Georgia's Pre-K Programs using the Work Sampling System (WSS) will receive Developmental Checklists (one per student) and the Georgia's Pre-K Progress Reports (one per student) in the mail in late July to early August. Georgia's Pre-K Programs using the Work Sampling System On-Line (WSO) will use electronic versions of the Developmental Checklist and Progress Report.

New teachers will receive all Assessment system manuals during New Teacher Institute Training. **From the beginning of school until completion of training, new teachers should observe and record student performance and collect work samples and photos.** If new teachers do not receive training until after the fall rating period, they **are required** to complete **only** the narrative portion of the Georgia's Pre-K Progress Report. New teachers should **not** complete the ratings on the Progress Report until after attending New Teacher Institute. Upon completion of training, new teachers will be able to immediately implement Georgia's Pre-K Child Assessment including use of the Work Sampling System Developmental Checklist and the Georgia's Pre-K Progress Report or reports for Work Sampling System On-Line in addition to the materials received at training, each teacher should have the following materials/equipment to successfully implement Georgia's Pre-K Child Assessment. For more information about Georgia's Pre-K Child Assessment Program please contact your consultant about viewing the Georgia's Pre-K Child Assessment On-Line Learning Module.
